

Solution Advantages

WESHINING
LEADER OF DENTAL POLISHING

High Efficiency

Our automated system replaces most manual operations and complete multiple polishing steps with minimal labor.

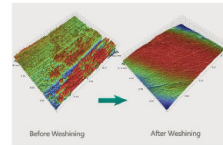

Batch Polishing

Process multiple workpieces simultaneously, and increase production efficiency.

Excellent Quality

A patented formula for the dental industry that removes scratches and defects on metal surfaces to achieve uniform and consistent high smoothness.

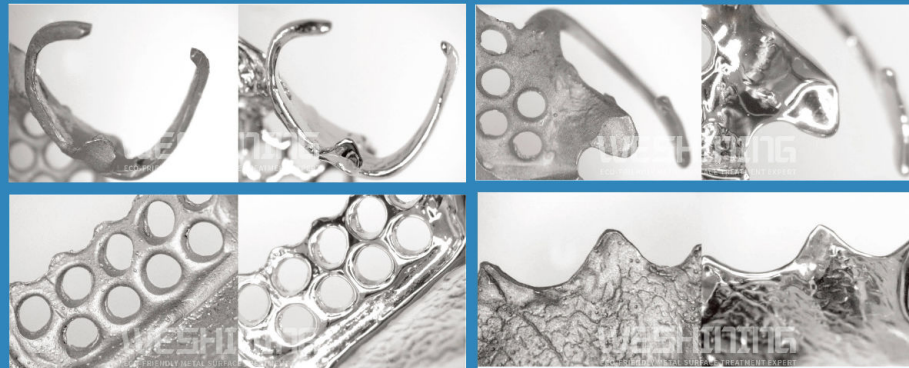

Eco-Friendly

Replacing toxic or corrosive chemical electrolytes with neutral environmentally friendly media. No harm to the environment and human health.
